Household Sewage Treatment System Replacement and Repair Loan Program **Program Overview**

WHAT IS A FAILING HOUSEHOLD SEWAGE TREATMENT SYSTEM (HSTS)

A septic system may not show any apparent signs of failure, but still may be considered to be a “failing” system:

- A HSTS which discharges sewage to bedrock, drain tiles, groundwater, surface water or into zone of seasonally saturated soils and exceeds the public health nuisance standards and effluent quality limits;
- A HSTS which discharges sewage onto the ground surface; or
- A HSTS in which components such as the concrete septic tank or distribution box are showing signs of deterioration.

WHO IS ELIGIBLE TO APPLY FOR THE PROGRAM

All residents of Butler County who may have a failing HSTS, and meet the income guidelines, are eligible to apply. Rental properties and new build homes will not be eligible for assistance.

WHAT COSTS ARE COVERED BY THIS PROGRAM

Allowable costs for HSTS repair and replacement include:

- Initial pumping of the system
- Soil evaluation
- Design fee
- Site and Design review fee
- Installation permit fee
- Cost of HSTS repairs
- Indoor plumbing repairs, if needed per OAC 3701-29 (reviewed on a case-by-case basis)
- Cost of installation and materials (estimates required)
- Other costs may be allowed per review

The amount of cost that will be reimbursed is based on the income level.

HOW DOES THE PROGRAM WORK

If you meet the criteria and get approval from the Butler County General Health District (BCGHD) for the repair or replacement of your HSTS, your information will be included in a list of qualified applicants.

- The list of qualified applicants will first be submitted for bid by professional soil evaluators and HSTS designers to conduct a soil evaluation of your parcel of land, and design a HSTS in accordance to the soil types.
- Once a HSTS design is approved for your household, the design will then be submitted for bid by sewage installers that are registered with the BCGHD.
- Once the HSTS is installed and approved by the BCGHD and upon receipt of all required documents by the contractor, the contractor will be reimbursed the amount in accordance with the approved application. This amount is based on the household income level at time of application.

WHAT PAPERWORK IS REQUIRED TO APPLY

If you decide to proceed with applying for grant assistance to replace or repair your HSTS, you will need to submit to the BCGHD the following required information and documentation:

- Application for Sewage Treatment System Replacement and Repair Program
- Income Verification Form (and accompanying documentation as requested)
