Re: Internship and Co-op Opportunities

Thank you for expressing an interest in an internship at the Butler County General Health District. Due to the response to COVID-19, we have suspended all Summer co-op and internship opportunities at this time with the exception of the Mosquito Control Grant which will be posted on our website once available.

Please direct any volunteer/offers of support for the COVID-19 response to <https://arcg.is/DL4yu>. Thank you for helping make Butler County a safer place to live, work and play.

Sincerely,

Jennifer Bailer
Health Commissioner
