Updated Media Contact Procedures Due to COVID-19 Response

Beginning March 19th, 2020 the Butler County General Health District (BCGHD) will not be granting press interviews until further notice while we respond to the COVID-19 situation.

Please understand that we are at capacity and this will allow staff to do the work required in this unprecedented situation. When we have news to share we will do it via a press release or conference to all media outlets.

We will be updating our website with current confirmed cases on a daily basis around 2:30PM each day. We will report total number of positive COVID cases in all of Butler County.

Starting March 30, Epidemiology Reports are to be released Mondays and Thursdays. All past and current Epidemiology Reports are available on our website, located here:

http://health.bcoho.us/our_services/novel_coronavirus.php

Additionally, BCGHD will continue to release Daily Situation Reports regarding the latest updates on confirmed cases, planning, actions, data points and ongoing activities. Daily Situation Reports are available on our website in the same location as the Epidemiology Report.

Thank you for your understanding.

Sincerely,

Jennifer Bailer, RN, MS
Health Commissioner
Butler County General Health District
